

Refrigeration Project Manager

Location: Glasgow, Bradford and Stowmarket

Technical Retail Services Limited (TRS) is actively recruiting for experienced Refrigeration Project Managers across its UK offices to work on supermarket retail projects.

Role and responsibilities:

Each RPM will be responsible for delivering projects to a very high standard within agreed programme and within budget.

Project responsibility will be the daily management of installation teams along with dedicated subcontractors.

Attendance at client review meetings is essential along with the ability to interpret any project changes and implement accordingly.

Management of the project supply chain is imperative including the planning and call off of Capital Plant and project materials.

A strong understanding of site health and safety is paramount working alongside our dedicated H&S manager.

Good communication with all the project stakeholders is key to being successful in the role.

TRS offers an excellent package for any candidate with the experience to take on the role.

In the first instance please send a cv with a covering letter to Stephen.curran@trs-group.co.uk

Should you wish to discuss the role please call 07786 813895
